# METAL LABEL

## Rosé

*Forged from the Limestone Coast, our Metal Label range refines standalone varietals into something exceptional.*

### Harvest Report 2021

In the vineyard a cool, cloudy, and dry summer provided a disease free growing season with great ripening conditions across all regions. Yields were quite low with early season budding and above average rainfall despite some hot days, heat waves didn't play a significant role. High quality wines with ripe fruit flavors and fresh acidity are the result.

### Tasting Notes

This wine presents an aromatic bouquet of cherry, rose petal, and strawberry cream notes. The palate is bursting with fruit; cherry, raspberry, and pomegranate are complemented by floral and confectionary, zippy acidity and a crisp dry finish.
